General Information
Dear Colleagues,

Nowadays, there is no doubt that heart and kidney diseases are closely connected and that they have a significant influence upon the quality of life and survival of patients. Therefore, there is no room for any doubt that the joint meetings of cardiologists and nephrologists are not only useful but they are as necessary as their close cooperation in management of patients. Hence, I would like to thank personally and, I believe, on behalf of all the participants of V International Cardionephrology Meeting, to Professor Dr. Sonja Radenkovic, the initiator and founder of KARNEF, on her persistent and steady work.

KARNEF started its life in May 2003 at I Cardionephrology Meeting with International Participation, bringing us together every other year with continuously improving quality and increasing number of renowned experts as lecturers from all over the world. This led to the foundation of Serbian Cardionephrology Association as the next step in developing our cardionephrology.

Although occasionally disputed, the Association continues its life thanks to, above all, its founder and president, but also to a significant number of cardiologists and nephrologists who are regularly attending and participating in the KARNEF meetings. Should you, even for a second, think that the number of the cardionephrology followers could be higher, I would not oppose you. I can only point out to the fact that KARNEF does not differ at all, in its early stages, from other meetings. Many renowned and well-attended meetings and societies gathered only a few enthusiasts in the beginning. Without enthusiasm, selfless work and support, such a goal cannot be reached. I am very happy that many of us supported the idea of the foundation of KARNEF and that, with our regular attendance of KARNEF meetings we enabled this young society to grow.

I hope that the path is paved now and that, in the forthcoming years, the activities of the Cardionephrology Association will be enriched. I also hope that in between the International Cardionephrology Meetings, there will be more scientific and professional meetings, joint projects, all aiming to achieve the best possible cooperation between cardiologists and nephrologists for our patients' well being.

I wish that V International Cardionephrology Meeting encourage us to further, even better, work by offering new knowledge and ideas, new acquaintances, and bringing together old friends.

Sincerely,

Prof. Dr. Ljubica Đukanović
Honorary President of Serbian Cardionephrology Association
Dear Friends and Colleagues,

It is my great pleasure to invite you to the V International Cardionephrology Meeting, KARNEF 2011.

This is the fifth meeting of cardiologists and nephrologists with impressive number of speakers from abroad (Italy, Germany, Switzerland, USA, Austria). Pathophysiologists, physiologists, clinical pharmacologists, biochemists, endocrinologists, vascular and cardio-surgeons will participate in the meeting as well.

The main points to be discussed are state-of-the-art aspects of CVS complications in renal patients and the influence of primary CVS diseases upon kidney damage. Like in the previous meetings, an important part of our programme will be prevention, early detection and treatment of CVS disorders in renal patients. Also, we will try to draw attention to arterial hypertension, especially, in pregnant and breast feeding women as well in older patients, along with reviewing new diagnostical and therapeutical possibilities.

The great novelty of this meeting is that the participants will have an opportunity to hear lectures organised by European Cardionephrology Association, ECNA.

Apart from invited speakers from our country and abroad, in this already traditional school of cardionephrology, an important part of the meeting is free communication and posters. Aiming on clinical education we will organize every day sessions called Cardionephrology in everyday clinical practice - case reports.

We hope that we managed to draw attention to the necessity for every nephrologist never to forget the heart in his patient and cardiologist not to forget his patient's kidney. In the last eight years we have successfully cooperated with the specialists from other medical fields, showing our multidisciplinary approach and team work.

I hope that you will contribute to this meeting with your active participation.

I am looking forward to welcoming you in Niš, in May 13.-15. 2011.

Sincerely,
Prof. Dr. Sonja Radenković
President of Organising Committee
The V International Cardionephrology Meeting

HONOURABLE COMMITTEE

Prof. Dr. Žarko Obradović
Minister of Education and Science of the Republic of Serbia

Prof. Dr. Zoran Stanković

I SESSION: ETIOPATHOGENETIC ASPECTS OF CARDIOVASCULAR SYSTEM DISEASES IN PATIENTS WITH CHRONIC KIDNEY DAMAGE

Working Committee:
Prof. Dr. Francesco Carluccio, Lecce, Italy
Prof. Dr. Gordana Kocić, Niš, Serbia
Prof. Dr. Marina Deljanin Ilić, Niš, Serbia

10:30-10:50
Prof. Dr. Alexander Rosenkranz
Phosphate and cardiovascular calcification - possible clinical implications

10:50-11:05
Dr. Sci. Med. Tatjana Damnjanović
Arterial calcifications in patients with end-stage renal disease-five years follow-up

11:05-11:20
Prof. Dr. Gordana Kocić
Oxidative stress and inflammation in the end-stage of renal disease and their consequences

11:20-11:40
Prof. Dr. Francesco Carluccio
Arachidonic acid peroxidation products inflammation and apoptosis of blood peripheral mononuclear cells in end stage renal disease
Programme

11:40-11:55  Prof. Dr. Tatjana Cvetković  
**Dimethylarginines and classical inflammatory markers in hemodialysis patients**

11:55-12:10  Dr. Sci. Med. Gordana Peruničić Peković  
**Uremic autonomic dysfunction in predialysis and dialysis patients**

12:10-12:25  Ass. Dr. Branka Mitić  
**Contemporary aspects of cardiac dysfunction in glomerular diseases**

12:25-12:40  Prof. Dr. Marina Deljanin Ilić  
**Subclinical parameters of heart damage in hypertension**

12:40-12:55  Discussion

12:55-13:10  Break

13:10-14:10  Round table and free communications:  
**Cardionephrology in everyday clinical praxis - case report**  
Moderator: Prof. Dr. Radovan Hojs

14:10-15:30  Poster session I and lunch
Programme

II SESSION:
CLINICAL MANIFESTATIONS, DIAGNOSTICS AND THERAPEUTIC TREATMENT OF CVS DISEASES IN RENAL PATIENTS

Working Committee:
Prof. Dr. Mario Timio, Perugia, Italy
Doc. Dr. Branislav Milovanović, Belgrade, Serbia
Doc. Dr. Nataša Marković Nikolić, Belgrade, Serbia

15:30-15:45
Doc. Dr. Branislav Milovanović
*Functional diagnostics of autonomous nervous system as a basis of personalized medicine in cardionephrology*

15:45-16:00
Doc. Dr. Nataša Marković Nikolić
*The importance of determining left ventricular mass index in renal insufficiency*

16:00-16:20
Prof. Dr. Mario Timio
*Atrial fibrillation in long-term hemodialysis patients and warfarin therapy*

16:20-16:40
Prof. Dr. Radovan Hojs
*Cardiac biomarkers in dialysis patients*

16:40-16:55
Prof. Dr. Đoko Maksić
*MIA syndrome and CVS disease in peritoneal dialysis*
Programme

16:55-17:10 Ass. Dr. Dragan Milić
Cardiac intervention in patients with impaired renal function

17:10-17:30 Andelka Ćelić PhD, Edward T. Petri PhD
Molecular basis of polycystic kidney disease pathogenesis

17:30-17:45 Prof. Dr. Dijana Jovanović
Experimental models of chronic renal insufficiency progression

17:45-18:00 Discussion

18:00-18:15 Break

18:15-18:45 Opening Ceremony and Concert

18:45-19:30 Welcome Reception
Programme

08:30-10:45  
**III SESSION:**  
**HEART AND DIALYSIS/TRANSPLANTATION**  
Working Committee:  
Prof. Dr. Svetislav Kostić, Niš, Serbia  
Doc. Dr. Dejan Petrović, Kragujevac, Serbia  
Prof. Dr. Đoko Maksić, Belgrade, Serbia

08:30-08:45  
Doc. Dr. Dejan Petrović  
*CVS disease in dialysis patients - meta-analysis of clinical studies*

08:45-09:00  
Prof. Dr. Beti Dejanova  
*Possible markers for cardiovascular impairment in hemodialysis patients*

09:00-09:15  
Prof. Dr. Svetislav Kostić  
*Adequacy of dialysis and its impact on CVS disease complications*

09:15-09:35  
Stephen Thijssen PhD  
*The evils of intradialytic sodium loading*

09:35-10:00  
Dr. Kai Harenski  
*Fluid overload in Cardiac & Renal disease, Critical Illness*

10:00-10:30  
Edwin Van Veen  
*The Septic Patient and CRRT*

10:30-10:45  
Discussion
IV SESSION part one:
HYPERTENSION, HEART AND KIDNEY

Working Committee:
Prof. Dr. Bernard Waeber, Lausanne, Switzerland
Prof. Dr. Ljubica Đukanović, Belgrade, Serbia
Prof. Dr. Rok Accetto, Ljubljana, Slovenia

10:30-10:50
Prof. Dr. Bernard Waeber
*What can be learned from recent morbidity - mortality trials performed in hypertensive patients?*

10:50-11:10
Prof. Dr. Rok Accetto
*Effect of different antihypertensive drugs on central blood pressure*

11:10-11:25
Prof. Dr. Ljubica Đukanović
*Clinical diagnostics of nephroangiosclerosis, its reliability and importance*

11:25-11:40
Prof. Dr. Ivan Tasić
*Hypertensive cardiovascular disease - treating high blood pressure or organ damage?*

11:40-11:55
Prof. Dr. Sonja Radenković
*Treatment of hypertension and kidney*

11:55-12:10
Discussion
Programme

IV SESSION part two:

HYPERTENSION, HEART AND KIDNEY

Working committee:
Prof. Dr. Milan Pavlović, Niš, Serbia
Prof. Dr. Sonja Radenković, Niš, Serbia
Prof. Dr. Nebojša Đorđević, Niš, Serbia

12:00-12:15 Doc. Dr. Radmila Veličković
New aspects in treatment of arterial hypertension in pregnant and breast feeding women

12:15-12:30 Prof. Dr. Sanja Simić Ogrizović
Arterial pressure in terminal kidney disease patients - new controversies

12:30-12:45 Prof. Dr. Nebojša Đorđević
Importance of surgical treatment of pheochromocytoma

12:45-13:00 Dr. Radmila Mitić
Interaction and adverse reactions of antihypertensive drugs

13:00-13:15 Dr. Sci. Med. Zorica Rašić
Blood pressure and magnesium level in drinking water of some Serbian municipalities

13:15-14:10 Round table:
Etiopathogenetic aspects of hypertension in the elderly - novelties in prevention and treatment
Moderators: Prof. Dr. Sonja Radenković, Prof. Dr. Milan Pavlović, Prof. Dr. Goran Koračević

14:10-14:25 Discussion

14:25-15:30 Poster session II and lunch
Programme

15:30-17:40  V SESSION:
PRIMARY HEART DISEASE AND KIDNEY

Working Committee:
Prof. Dr. Guiseppe Schillaci, Perugia, Italy
Prof. Dr. Dragan Đurić, Belgrade, Serbia
Prof. Dr. Steva Plješa, Zemun, Serbia

15:30-15:50 Prof. Dr. Bernard Waeber
Early vascular ageing and risk of future

15:50-16:10 Prof. Dr. Giuseeppe Schillaci
Arterial stiffness and cardiorenal risk

16:10-16:25 Prof. Dr. Milan Pavlović
Systolic dysfunction and renal damage

16:25-16:40 Prof. Dr. Sunčica Petrovska
Lack of estrogens as a risk factor for cardiovascular disease in women during menopause

16:40-16:55 Prof. Dr. Dragan Đurić
Homocystein effects on heart and brain - the role of L-arginine/NO system and folic acid

16:55-17:10 Dr. Sci. Med. Sonja Šalinger Martinović
HDL values - new therapeutic strategy in CVS protection
Programme

17:10-17:25 Doc. Dr. Arsen Ristić
*Cardiovascular disease and kidney*

17:25-17:40 Discussion

17:40-17:55 Break

17:55-18:10 Prof. Dr. Steva Plješa
*Burn out syndrom in cardinephrology*

18:10-18:25 Prof. Dr. Mirjana Radenković
*Hypotensive and bradycardic effects of ginko, garlic and onion*

18:25-19:00 Round table and free communications:
*Cardinephrology in everyday clinical praxis - case report*
Moderator: Prof. Dr. Radmila Radovanović Veličković
Programme

08:30-09:50  **VI SESSION:**
**CARDIORENAL SYNDROM AND DIABETES**

*Working Committee:*
Prof. Dr. Slobodan Antić, Niš, Serbia
Prof. Dr. Višnja Ležaić, Beograd, Serbia
Prof. Dr. Vladmila Bojanić, Niš, Serbia

08:30-08:45 Ass. Dr. Branka Mitić
*Early markers of diabetes nephropathy and their importance in disease progression assessment*

08:45-09:05 Ass. Dr. Marjan Bosevski
*Carotid IMT in type 2 diabetic patients: a survey on factors of influence*

09:05-09:20 Prof. Dr. Vladmila Bojanić
*Experimental models of kidney damage in metabolic syndrome*

09:20-09:35 Prof. Dr. Slobodan Antić
*Obesity and hypertension - contemporary principles of diagnostics and therapy*

09:35-09:50 Discussion
Programme

09:50-11:05  VII SESSION: CARDIONEPHROLOGY IN GERIATRICS

Working Committee:
Prof. Dr. Radovan Hojs, Maribor, Slovenia
Prof. Dr. Ivan Tasić, Niš, Serbia
Doc. Dr. Nebojša Despotović, Beograd, Serbia

09:50-10:05  Doc. Dr. Nebojša Despotović
Correlation of troponin and creatinine clearance in patients aged 65+

10:05-10:20  Prof. Dr. Višnja Ležaić
Glomerular disease in elderly

10:20-10:35  Prof. Dr. Sonja Radenković
Water - electrolyte balance alterations in the elderly and cardiorenal disorders

10:35-10:50  Prof. Dr. Ivan Tasić
Etiopathogenetic aspects of sympathicus hyperactivity in the elderly and its importance for CVS events

10:50-11:05  Discussion

11:05-11:20  Break
Programme

11:20-12:45  VIII SESSION:
EPIDEMIOLOGY, EARLY DETECTION, DIAGNOSIS
AND PREVENTION OF KIDNEY
AND HEART DISEASES

Working Committee:
Prof. Dr. Enrico Agabiti Rosei, Brescia, Italy
Prof. Dr. Enisa Mešić, Tuzla, Bosnia and Herzegovina
Ass. Dr. Branka Mitić, Niš, Serbia

11:20-11:40  Prof. Dr. Enrico Agabiti Rosei
Clinical significance of preclinical cardiorenal damage
in hypertension

Percutaneous coronary procedures and cardiorenal risk

11:55-12:10  Prof. Dr. Enisa Mešić
Early detection program of chronic renal disease in high
risk population in Bosnia and Herzegovina - hypertension
in the Balkan endemic nephropathy region

12:10-12:30  Prof. Dr. Mario Timio
Clinical ethics: evaluation of psychosocial burden
on care-givers of patients on dialysis

12:30-12:45  Discussion
Programme

12:45-13:30  Round table:  
*The latest recommendations on CVS and renal disease prevention - where are we today?*
Moderators: Prof. Dr. Višnja Ležaić  
Prof. Dr. Ljubica Đukanović

13:30-14:15  Poster session III and lunch

14:15-15:00  Round table and free communications:  
*Cardionephrology in everyday clinical praxis - case report*  
Moderator: Prof. Dr. Steva Plješa

15:00-15:45  Attendance certificates
Programme

**POSTER SESSIONS:**

Dr. Pavle Mladenović  
*Leptin resistance*

Dr. Jasmina Petrović  
*Consumption of cardiovascular drugs in the clinical centre of Niš from 2008. to 2010.*

Dr. Vesna Radičević  
*Prevention of arterial hypertension - what patients know about it?*

Dr. Jasmina Radivojević  
*Peritoneal dialysis – good choice in patients with cardiorenal syndrome type 4 - case report*

Dr. Jelena Radović  
*Renal dysfunction in patients with systolic heart failure - cardiorenal syndrome type 2 - case report*

Dr. Tomislav Redžić  
*Acute coronary syndrome in patients with end-stage renal disease - cardiorenal syndrome type 4 - case report*

Dr. Snežana Spasojević Petrović  
*Hypertensive crisis in elderly and renovascular hypertension - case report*

Dr. Danijela Tasić  
*The resistant hypertension in old patients*

Dr. Danijela Tasić  
*Obesity, prehypertension and renal failure*

Dr. Radmila Žeravica  
*The influence of inhibition of angiotensin converting enzyme on effective renal plasma flow depend on functional status of kidney*

Prof. Dr. Lazar Todorović  
*Hipokalemijski disbalans u akutnom infarktu miokarda*

Opening ceremony and concert
New Amphitheatre of Medical Faculty

May 13th, Friday; 11:30
Welcome reception

May 14th, Saturday; 20:30
Gala dinner
Restaurant STADION
General Information

Meeting place
New Amphitheatre of Medical Faculty Niš

ON-SITE REGISTRATION

Each participant/company must fill in the on-site registration forms (13 – 15 May, from 7:00 to 18:00), located at the reception desk. Information such as, name, full address, e-mail and fax will be mandatory for each registration, whether personal or sponsored.

It will be possible to pay by using bank cheques (already issued) and bank transfers (in which case a copy of the original bank transfer receipt issued by the bank must be handed in while registering) and cash.

The registration fee includes admission to the Opening Ceremony and the Welcome Reception, unlimited access to all scientific sessions, access to the exhibition, one congress bag with complete meeting materials, gala dinner and certificate.

IDENTIFICATION

Participants are kindly requested to wear their badge during all congress activities and social events. The badge will admit to the scientific sessions, exhibition area, coffee breaks and lunches.

ATTENDANCE CERTIFICATES

Attendance certificates will be delivered on request to all regularly registered participants at the end of the meeting.
General Information

Meeting place
New Amphitheatre of Medical Faculty Niš

Language
The official language of the Meeting is English. Simultaneous interpretation will not be provided. All presentation slides will be in English.

Presentations
Oral presentations - duration 15 minutes, including discussion. Slides should be in English, and presentations can be held in English or Serbian. A projector (video beamer) with accompanying equipment will be available. Presentation should be prepared in PowerPoint, using Times New Roman or Arial font.

Poster presentations - panels for posters have width of 120cm and height of 80cm. Posters should be in English. Discussion will be in English and Serbian.

Exhibition
Exhibition of pharmaceutical products will be held at the time of the symposium in the lobby of the Medical faculty.

Opening Ceremony, Concert with Welcome Reception
The Opening Ceremony of the Meeting and Concert will be held on May 13th, from 10:30 to 11:30, in the new Amphitheatre at the Medical Faculty of Nis. Opening Ceremony will be followed by Welcome Reception.

No-smoking
Smoking in the Meeting area will not be allowed.
